7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Please see Exhibit A attached hereto.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Please see Exhibit B attached hereto.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Please see Exhibit C attached hereto.

12. Estimated cost of works \$4.5 million.

13. Estimated time required to construct works 3 years.

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years.

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water under this application will be used for mining and milling purposes at Applicant's Bald Mountain Mine, which is located in White Pine County, Nevada.

16. Miscellaneous remarks:

Please see Exhibit D attached hereto.

Exhibit C

Item No. 11. Description of proposed works.

The diversion works will include Applicant's existing wells and distribution system together with new storage facilities that will be constructed to store water for distribution throughout the proposed place of use for mining, milling, and domestic purposes. The storage facilities will consist of freshwater ponds and tanks located strategically within the proposed place of use for accessibility.
